ABOUT US

HornHub is a platform, built on the blockchain, that allows adult artists and actors (known as 'Talents' on HHUB) to build and run their own fan hub while securely earning for their content. Not only does HornHub allow the talent to run their own 'business' freely, but we also help them easily transform their content into NFTs, with a click of a button, which they can sell and earn royalties, straight on HornHub's custom built NFT marketplace.

The platform will have a social media feel to it with a user friendly interface easing the skills required to operate and navigate. HornHub provides the opportunity for anyone to build and run their own FanHub or participate and follow their favorite artists and actors! The NFT marketplace will not only allows users to purchase and sell state-of-the-art, limited edition content from our talents but will also allow them to resell their own non-fungible tokens.

This unique solution provides an additional revenue stream to the NFT creator through royalties each time their asset is exchanged by using HHUB tokens as the exclusive form of currency on this platform.

Purchase

The screenshot displays the HornHub platform interface. At the top, there's a navigation bar with 'HORNHUB', a search bar, and links for 'Browse Models', 'My Subscriptions', 'Messages', and a token balance of '2034 Tokens'. The main content area shows a user profile for 'SecretAffair' with 1053 photos, 322 videos, and 43k followers. A 'Withdraw Tokens' modal is open, allowing users to withdraw tokens to a Metamask wallet (254 tokens) or a wallet address. The transaction fee is 20 tokens. Below the modal, there's a video post by 'Jasmine Jones' with 33 likes and 10 comments. On the right, there's a sidebar with 'Recent Conversations' and 'Your Subscriptions'.

Non-Crypto user friendly.

HornHub was built for everyone. Metamask, BNBs & the whole crypto knowledge is **NOT** needed.

CHARITY & AWARENESS

We at HornHub truly believe in sexual freedom and openness. Unfortunately, ill-intentioned individuals have been exploiting women of all ages in sex trafficking activities but there's something we can do about it.

HornHub's vision and mission is to help charities around the world fight against sex trafficking and help with sex education.

We are allocating 1% per transaction that will go directly into the charity wallet that will serve for these purposes.

Here at HornHub, we understand that helping the world becoming a better place is also key for success. Charity related world issues will be looked up on a continual basis. Everything submitted on the HornHub NFT marketplace will be submitted by non-Exploited creators of legal age. The content must be legally owned by the creator.
